

Accentuate your natural beauty and renew your confidence with Vshape

LOVE YOUR SHAPE

SAY GOODBYE TO CELLULITE

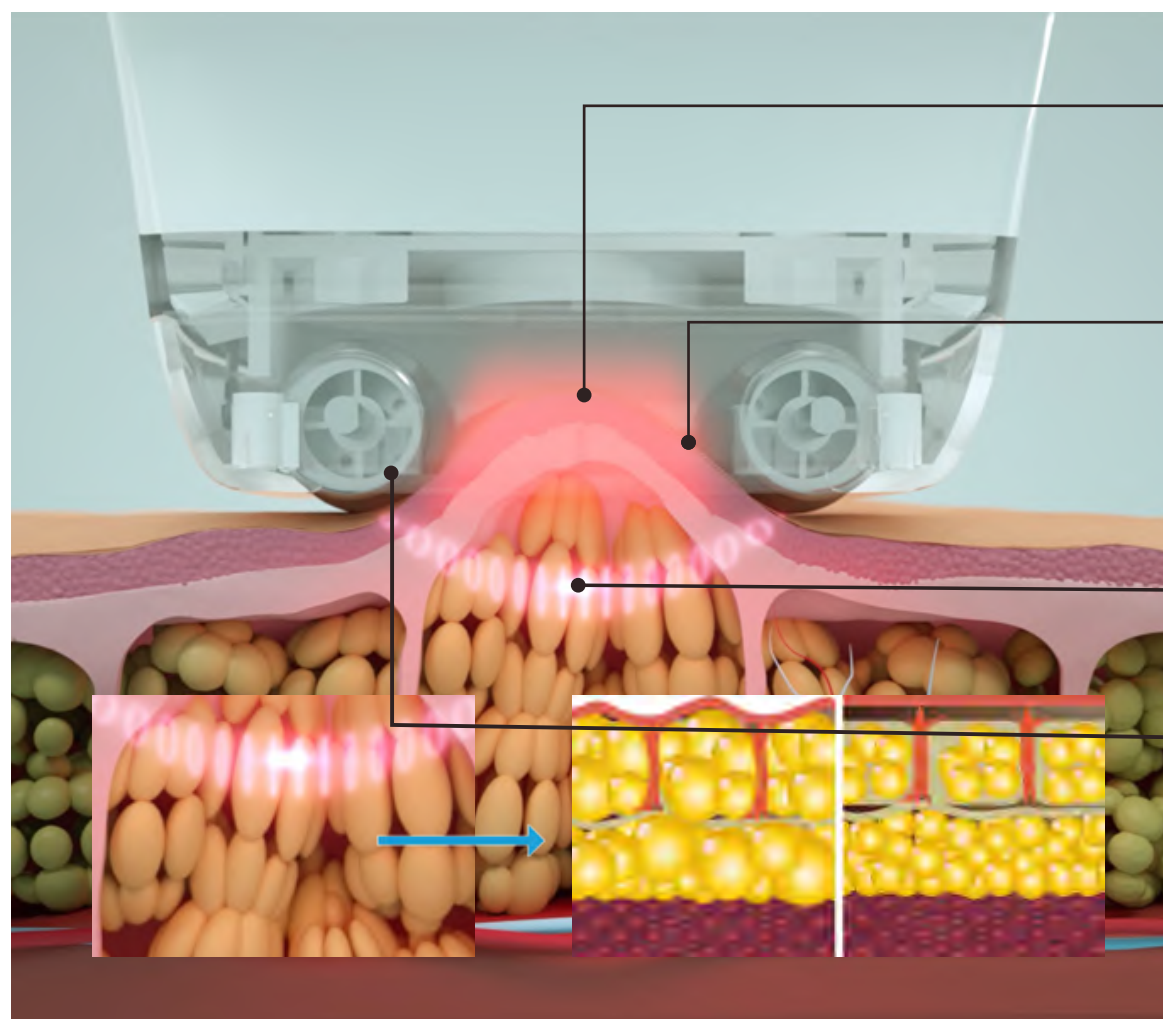

Whole body treatment

Safe and Reliable

Effective and Comfortable

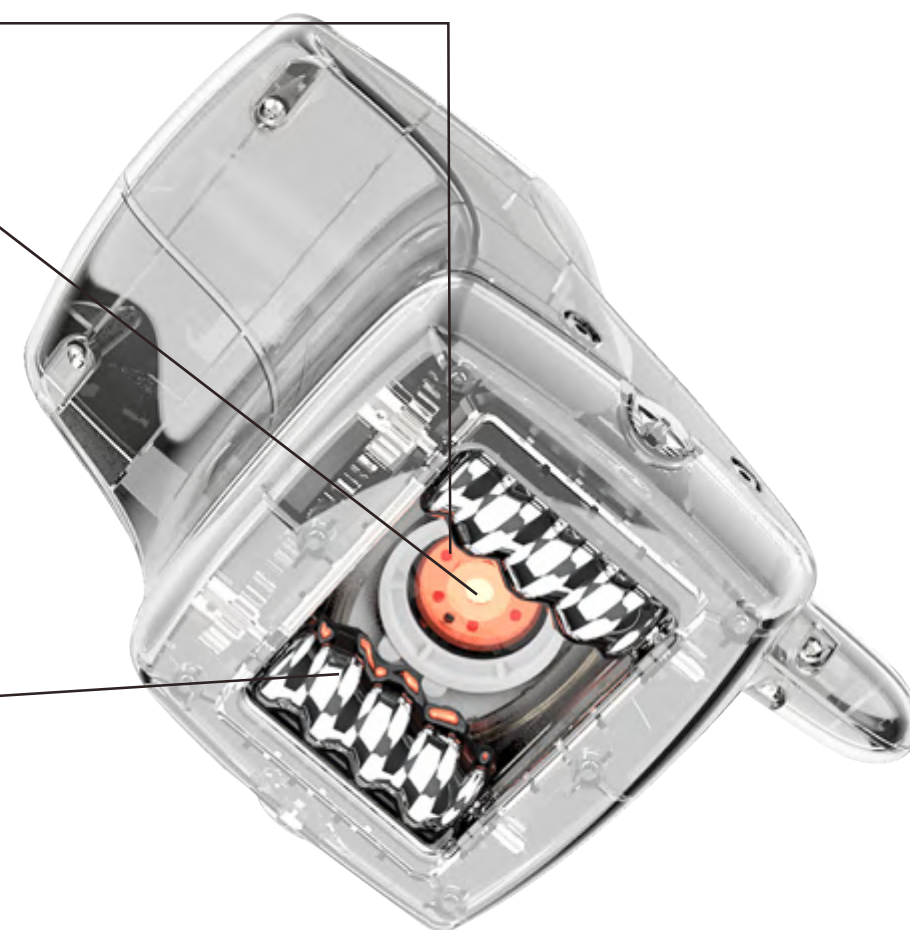

Infrared laser directly heats the targeted area

A vacuum elevates the target tissue, bring it closer to the energy source

Bi-polar RF heat from epidermis to subcutaneous at 15mm depth, can deliver thermal energy continuously to adipose tissue and dermal collagen fibers.

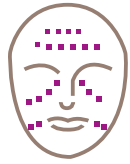

Roller massage accelerates blood cycle and lymphatic drainage.

Combines five different technologies

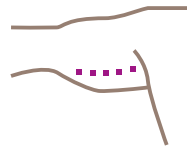

The V-shape combines five different technologies including IR(Infrared laser), Bi-polar RF, massage roller, vacuum and ultrasound cavitation. The combination of IR, vacuum and RF cause deep heating of the fat cells, their surrounding connective tissue and the underlying dermal collagen fibers. This type of efficient heating and vacuum stimulates the growth of new and better collagen and elastin which results in localized reduction in skin laxity, body volume, and an overall improvement in skin structure and texture. The massage roller causes an immediate increase in circulation and lymphatic drainage, both essential components for healthy skin structure.

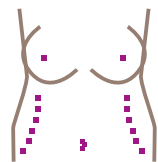

Face and Submental

- Skin rejuvenation & skin tightening (Laxity, wrinkles, fine lines)
- Face & neck contouring (submental shaping)
- Skin resurfacing

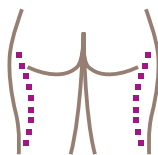

Arms (bingo wings) & Back

- Circumferential reduction
- Skin tightening (Laxity)
- Stretch marks

Stomach (abdomen & love handles)

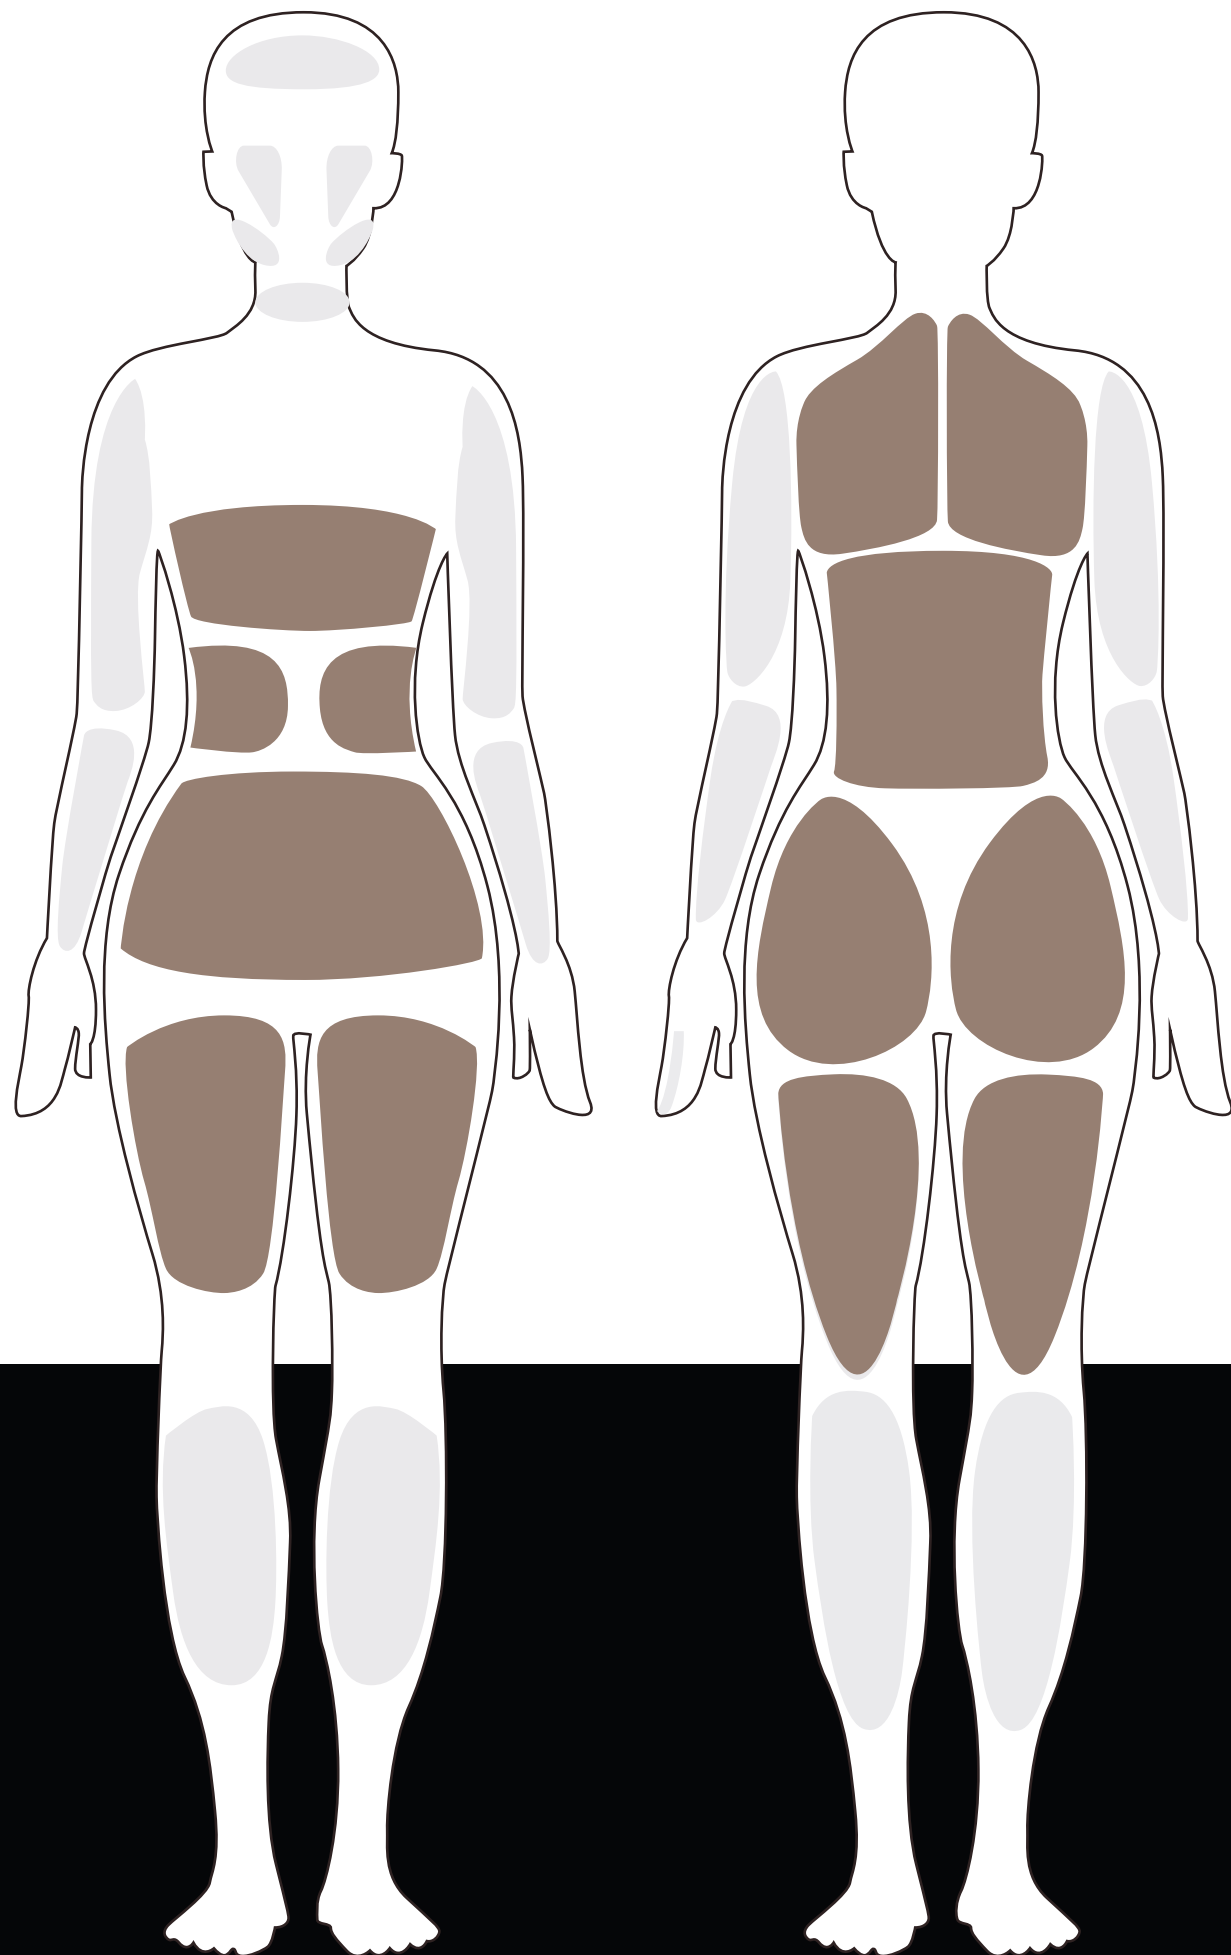

- Circumferential reduction
- Body contouring
- Skin tightening (Laxity)
- Stretch marks (red and white)

Legs (thighs & buttocks)

- Circumferential reduction
- Cellulitis treatment
- Body contouring
- Skin tightening

Front

Back

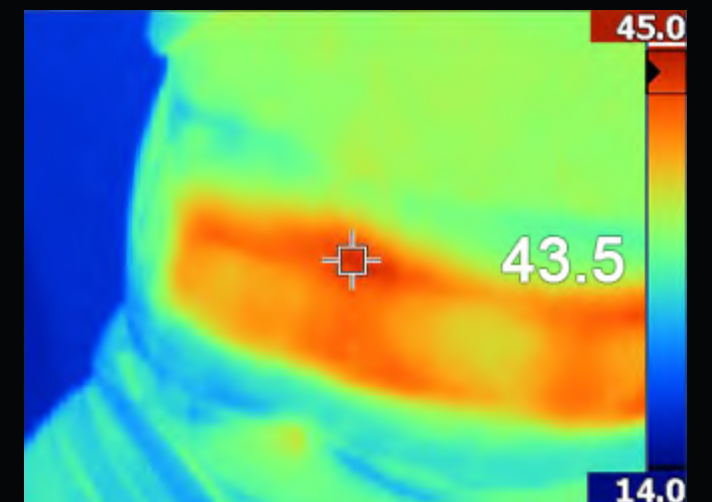

40mmx66mm

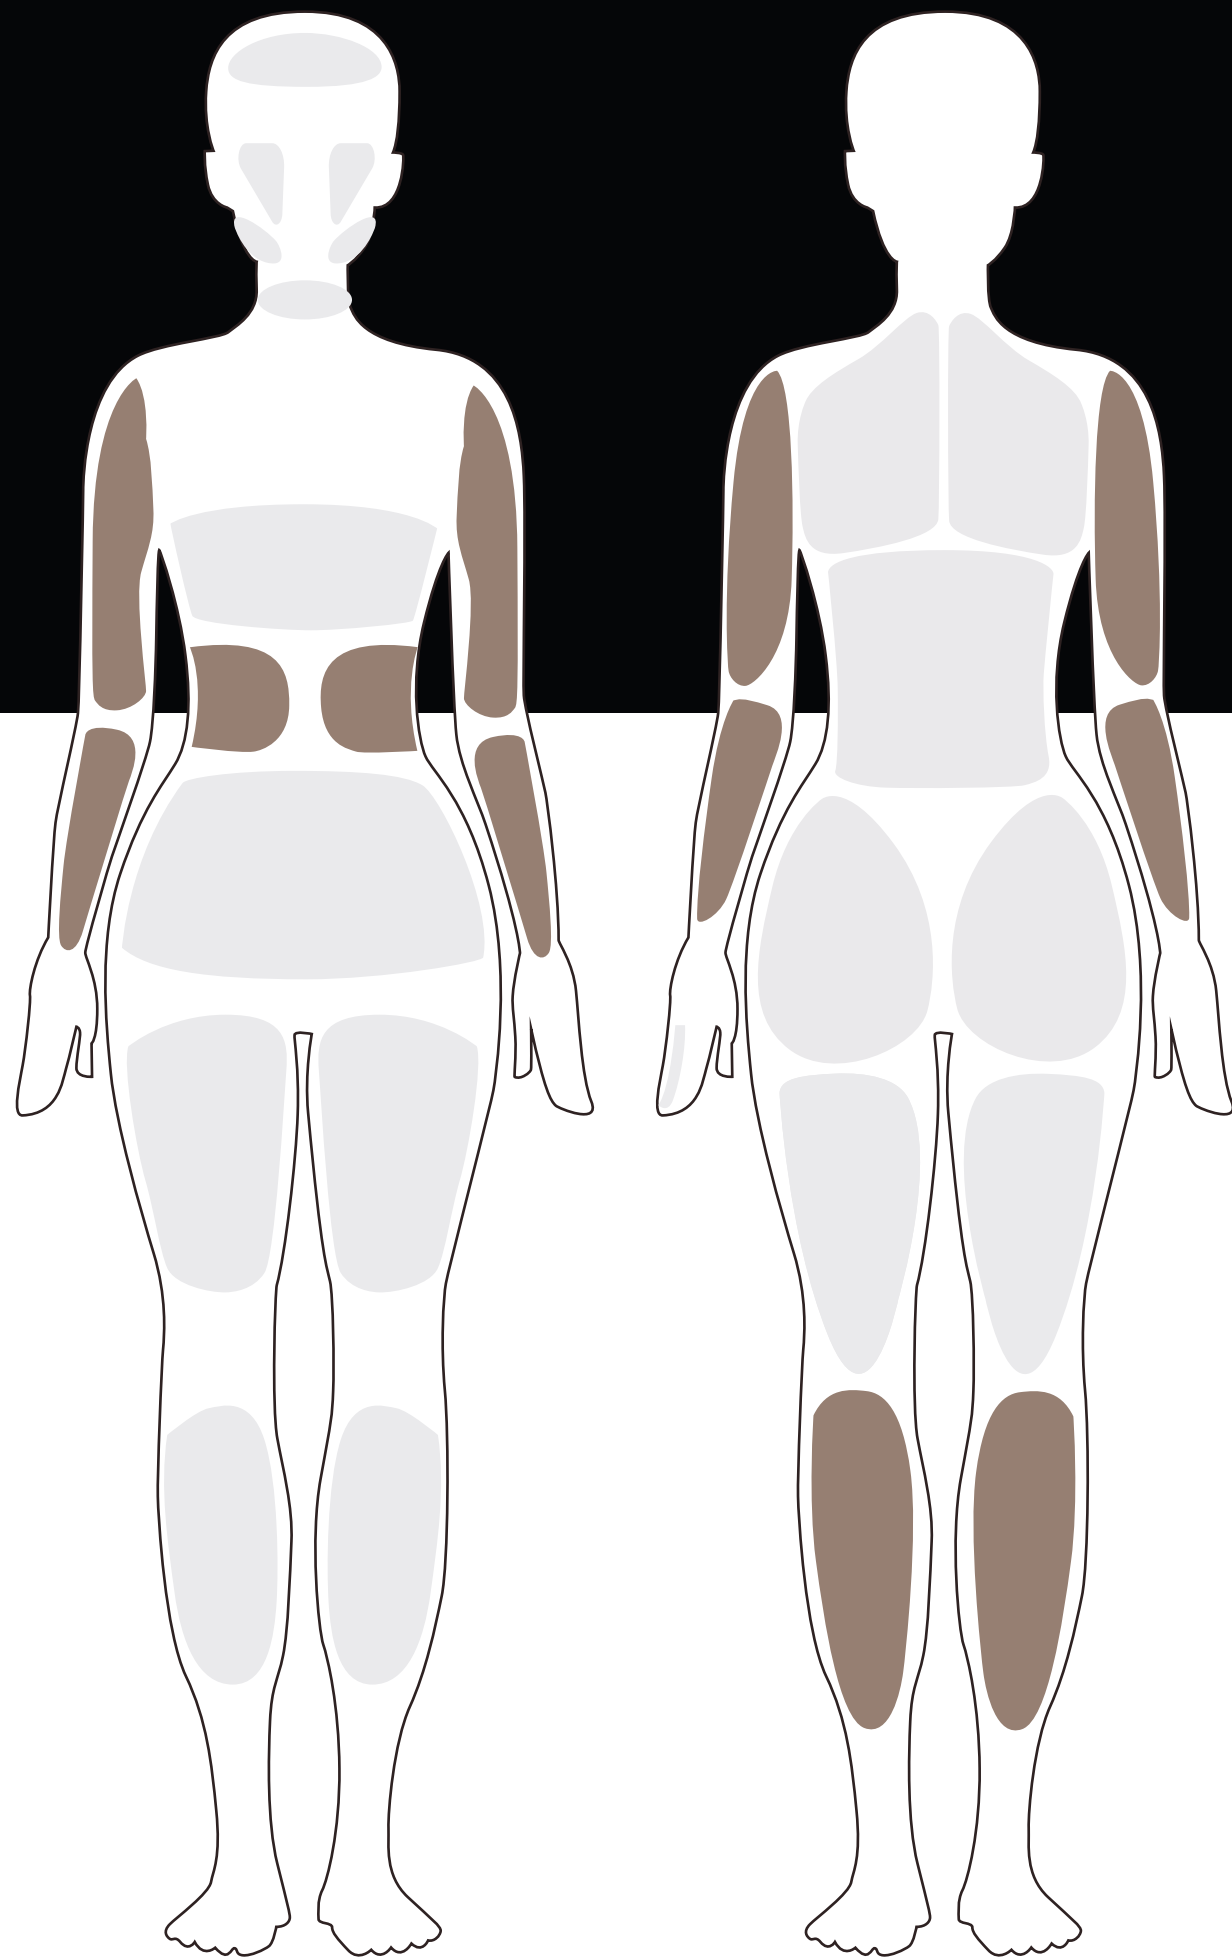

INFRARED VACUUM ROLLER RF HANDLE (BIG)

Used for cellulite removal

skin tightening on the abdomen, buttocks, waist, thighs and back.

30 seconds of treatment can
increase the temperature of the
treatment area to 43.5°C

Front

Back

Clean And Hygienic

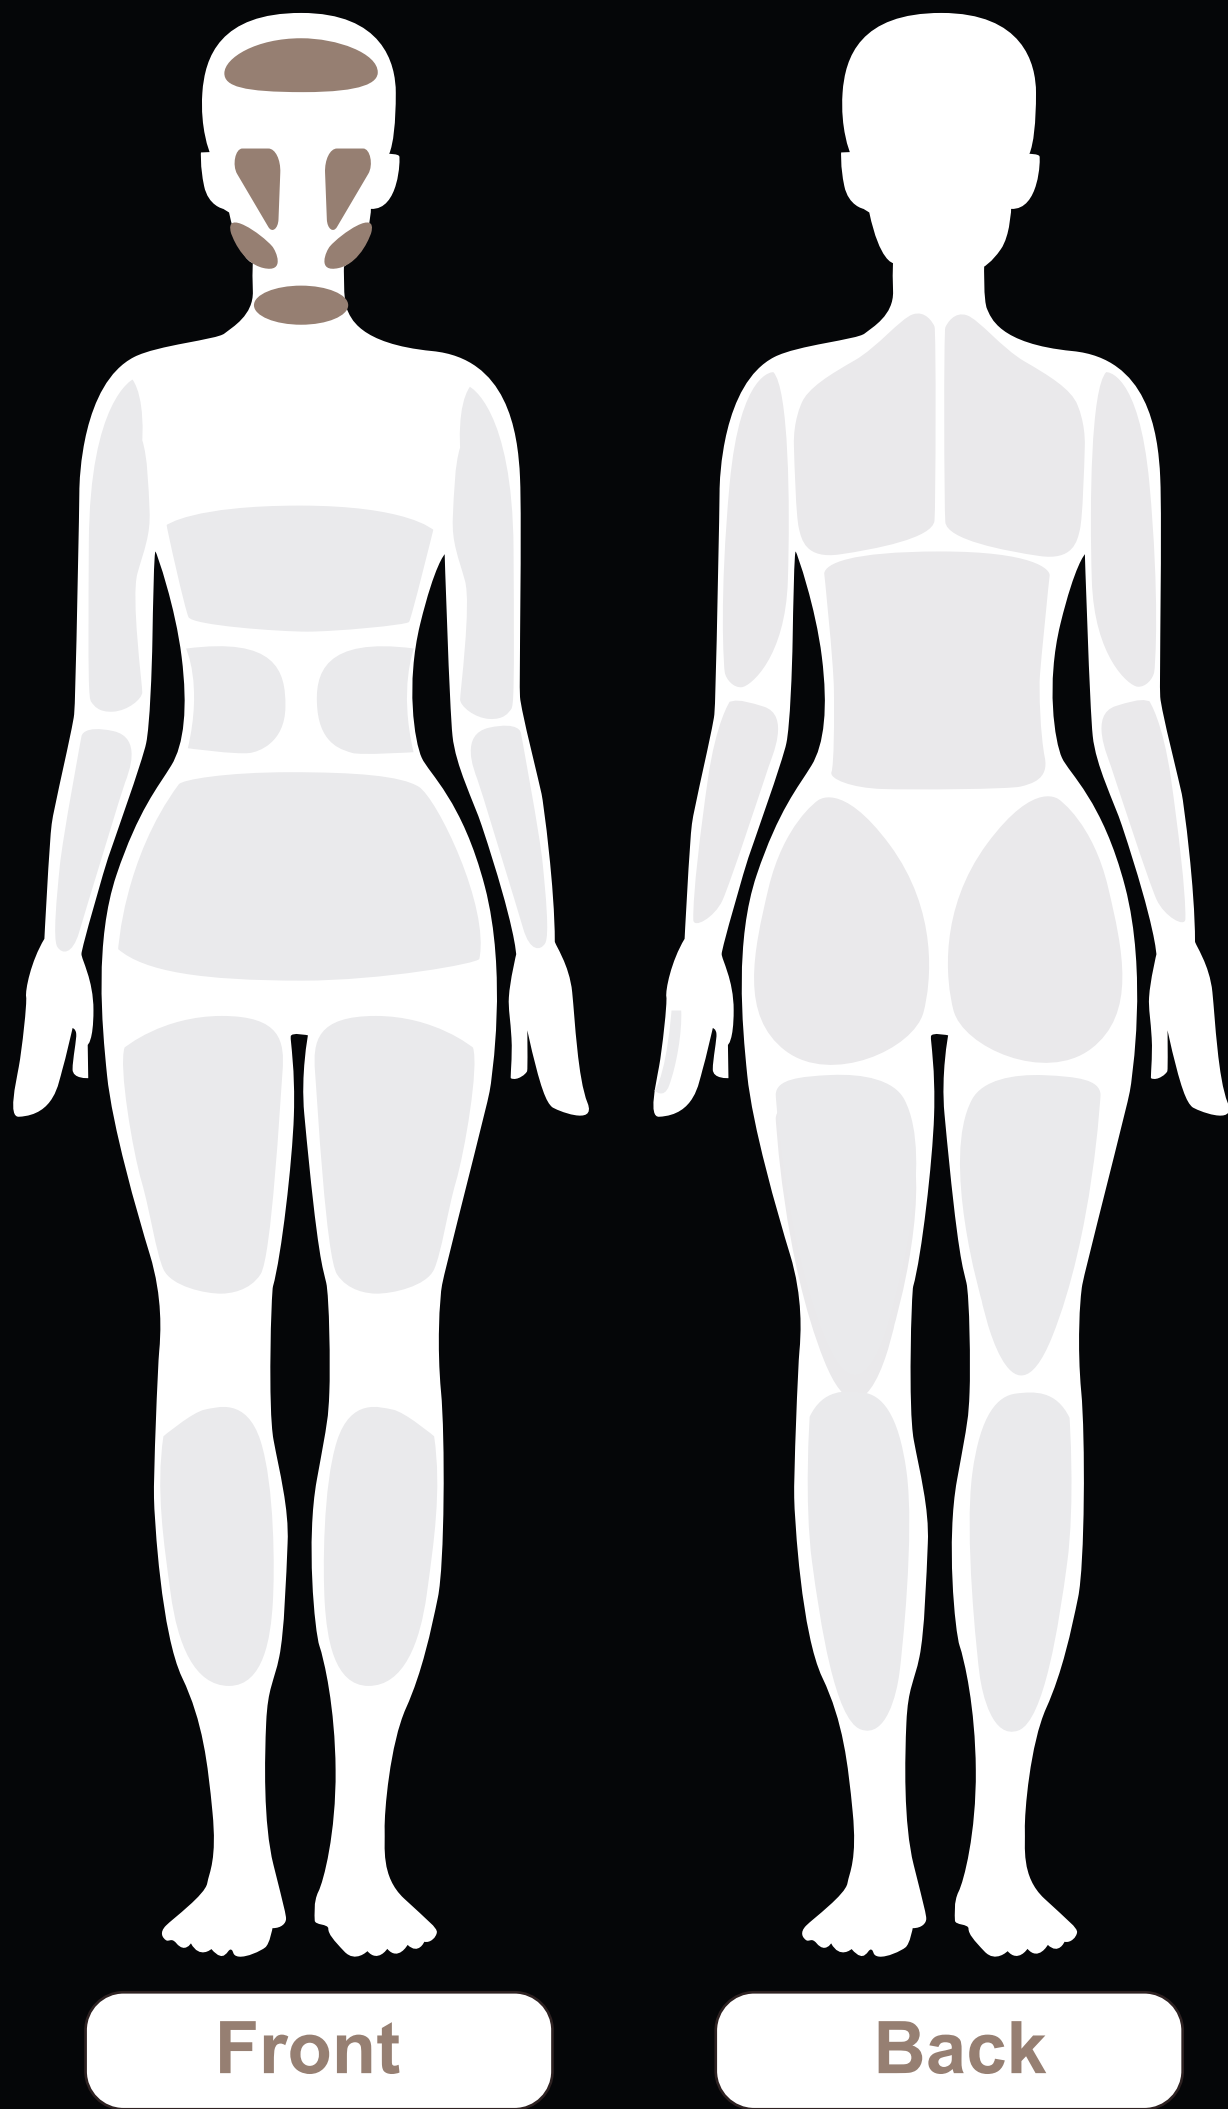

Applicator head replaceable design

30mmx44mm

INFRARED VACUUM ROLLER RF HANDLE (SMALL)

Used for cellulite removal and skin tightening on arms, calves and back.

16mmx25mm

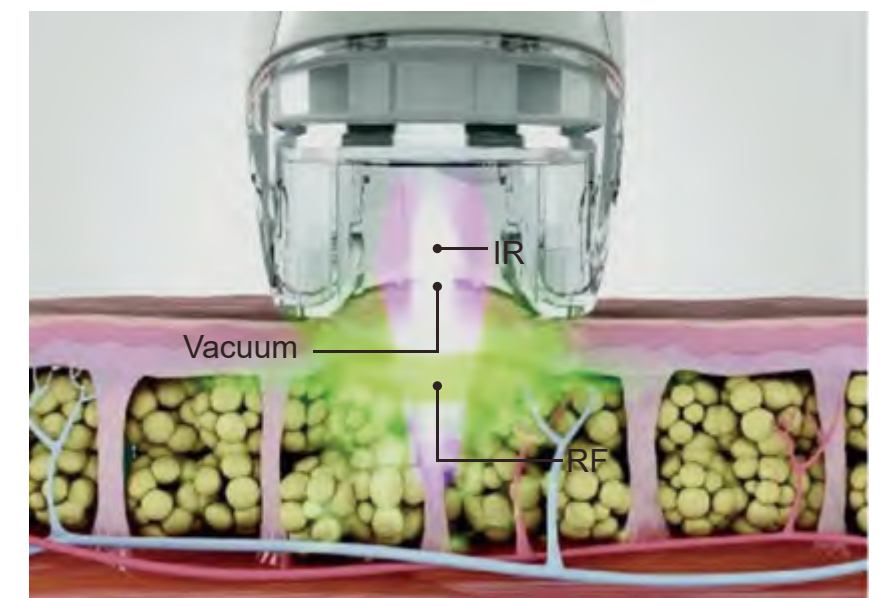

9mmx13mm

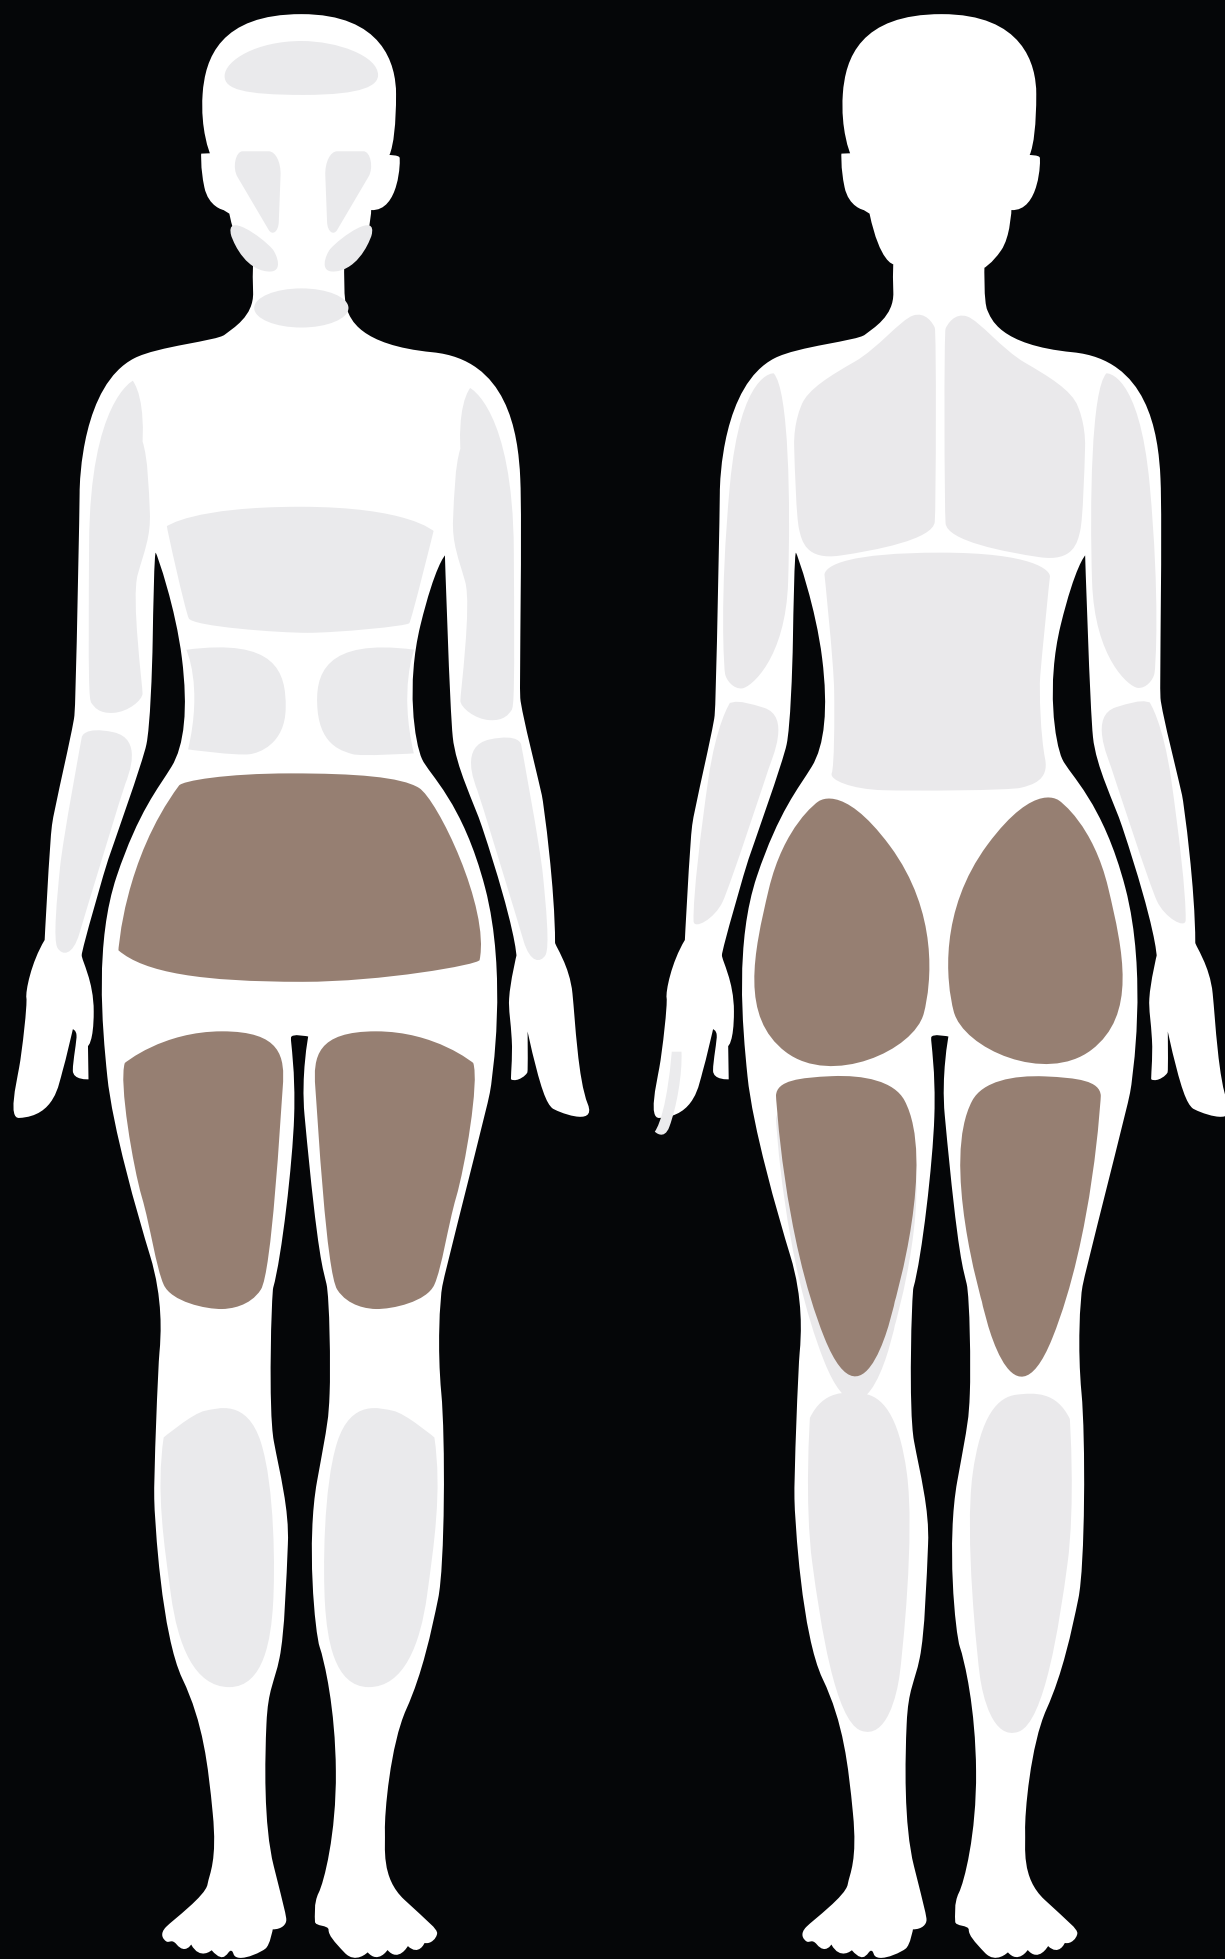

4.5mmx9mm

FACIAL VACUUM RF HANDLE

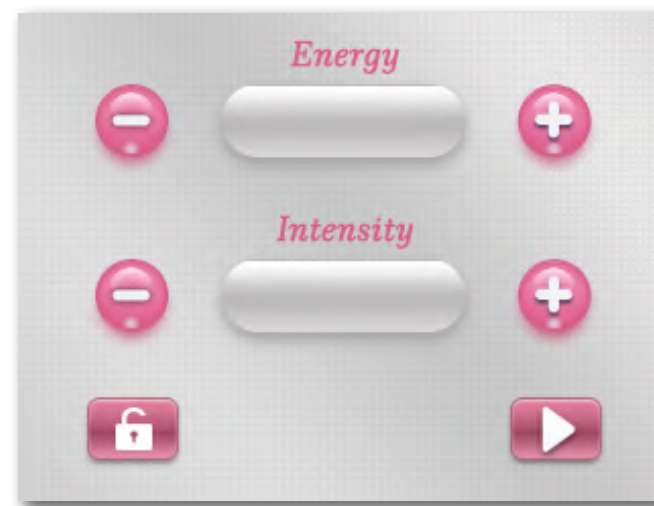

Equipped with three different sizes of treatment heads, used for facial and neck skin tightening and lifting, eye wrinkles removal, eye bags and dark circles treatment.

Front

Back

The handles adopt 3.5-inch touch screen, and the treatment parameters can be adjusted by the handle during treatment, which is convenient for operation

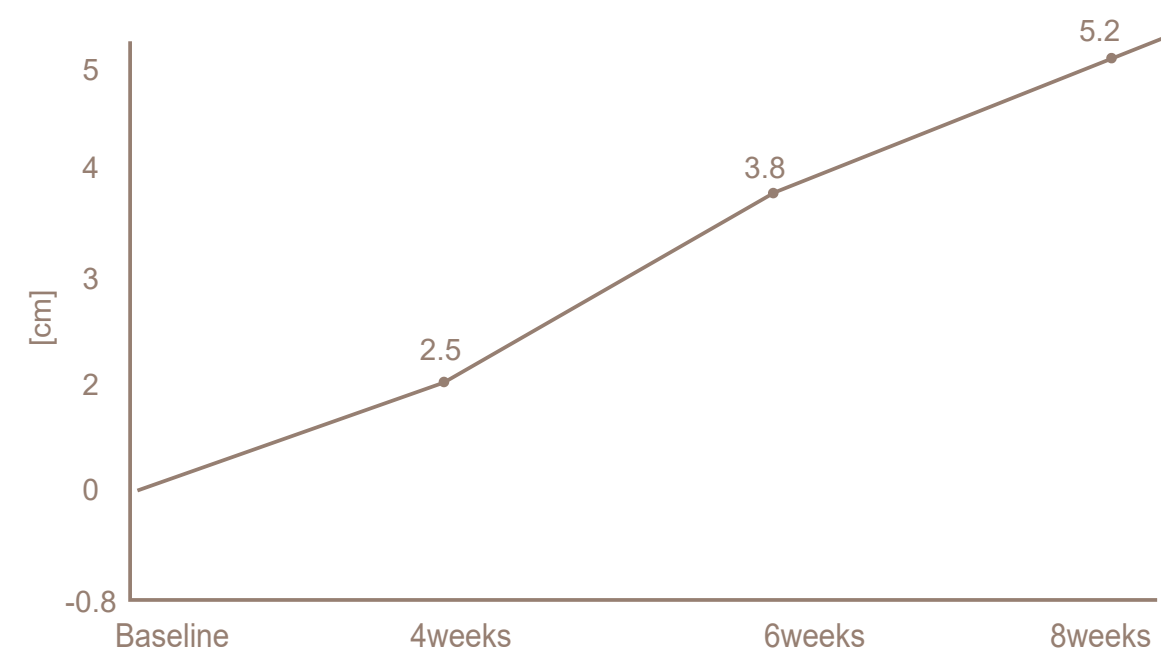

90mmx120mm

VACUUM ULTRASOUND CAVITATION HANDLE

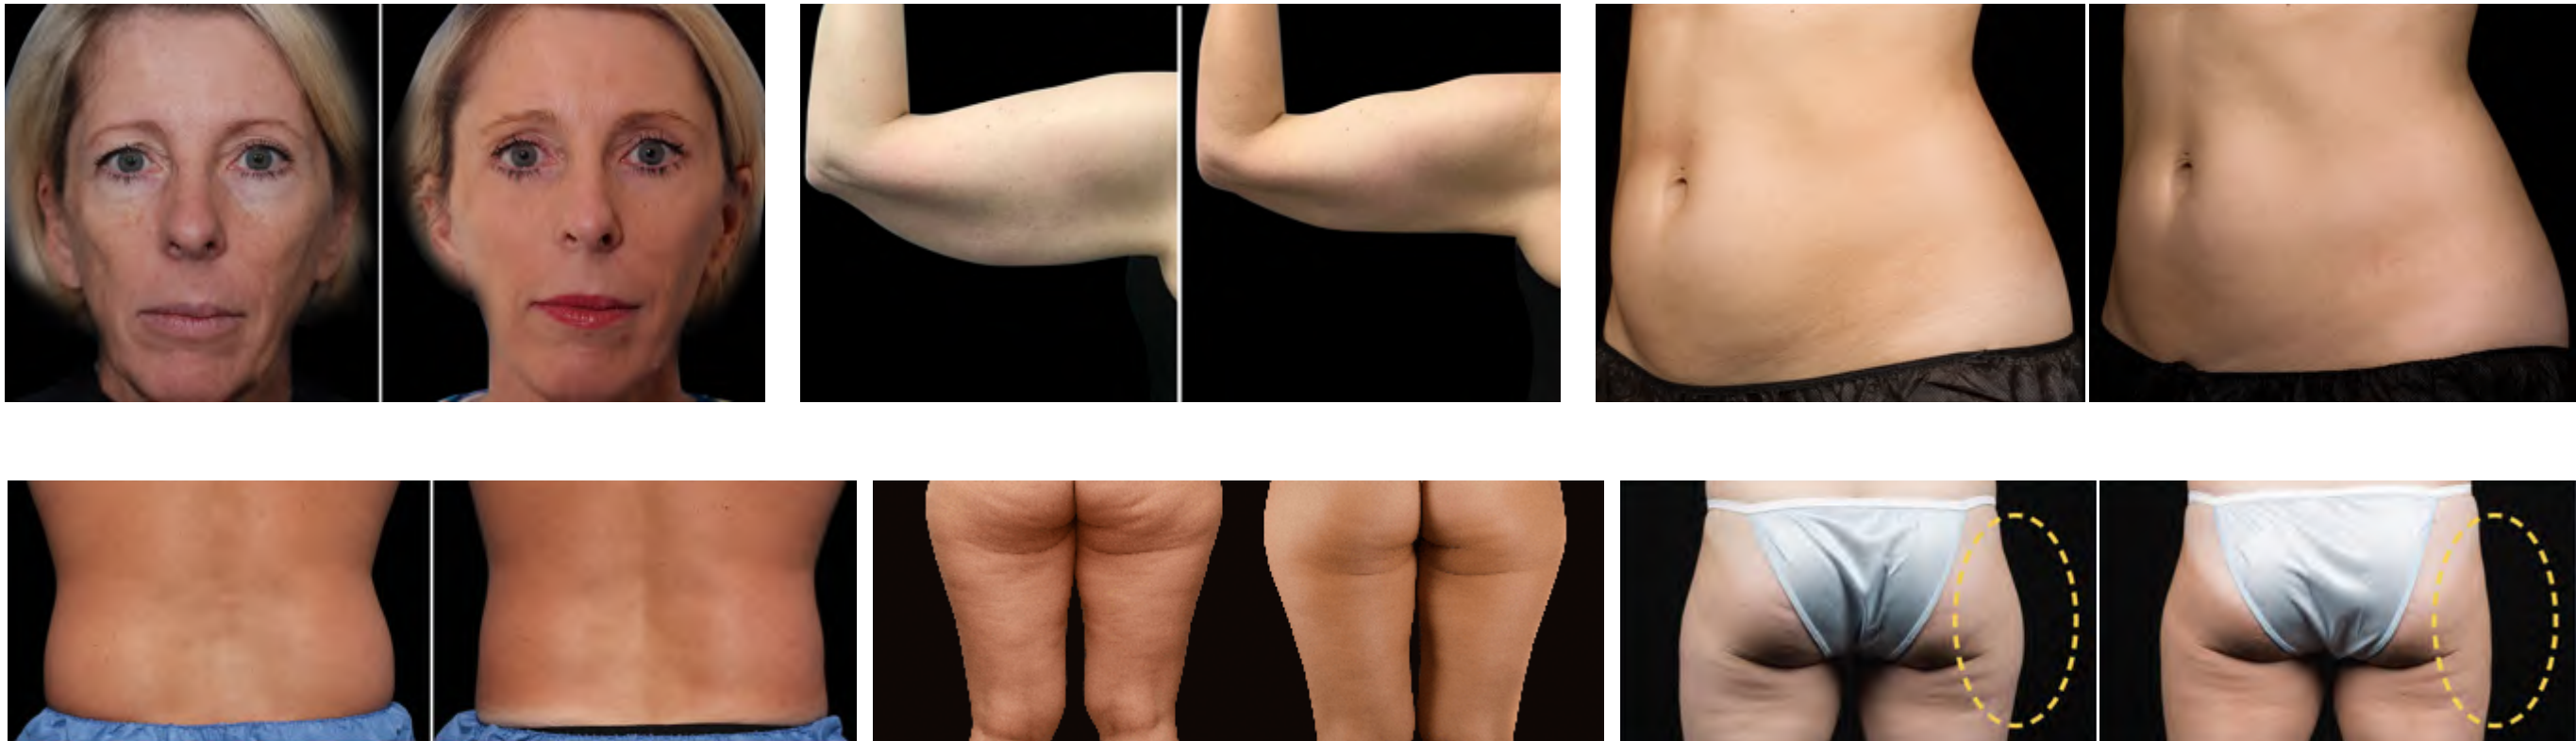

Combines vacuum and ultrasound, for local fat reduction in the abdomen, buttocks, thighs and other areas.

AVERAGE REDUCTION OF ABDOMEN WIDTH

Based on numerous clinical medical treatment statistics, it shows 4-6 cm waist width reduction after one cycle of treatment, and this reduction keeps going on for 2-3 future months.

BEFORE AND AFTER

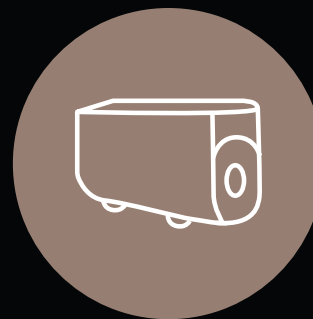

Japan SMC Solenoid Valve

High speed, long life, no noise

Korea DKC Motor

Stable output, long life

Italy Imported Air Pump

Large flow, low noise

America Coherent IR Laser Diode

High power, long life

Model Number	VSIII Pro
Power of RF	800W
Frequency of RF	2Mhz
Infrared laser Power	20w
Infrared laser wavelength	940nm
Ultrasound power	200W
Vacuum Indensity	10-90Kpa
Dimensions	470*500* 1330mm
Weight	50kg
