

COMBINES FOUR DIFFERENT TECHNOLOGIES

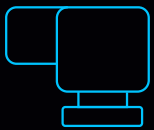

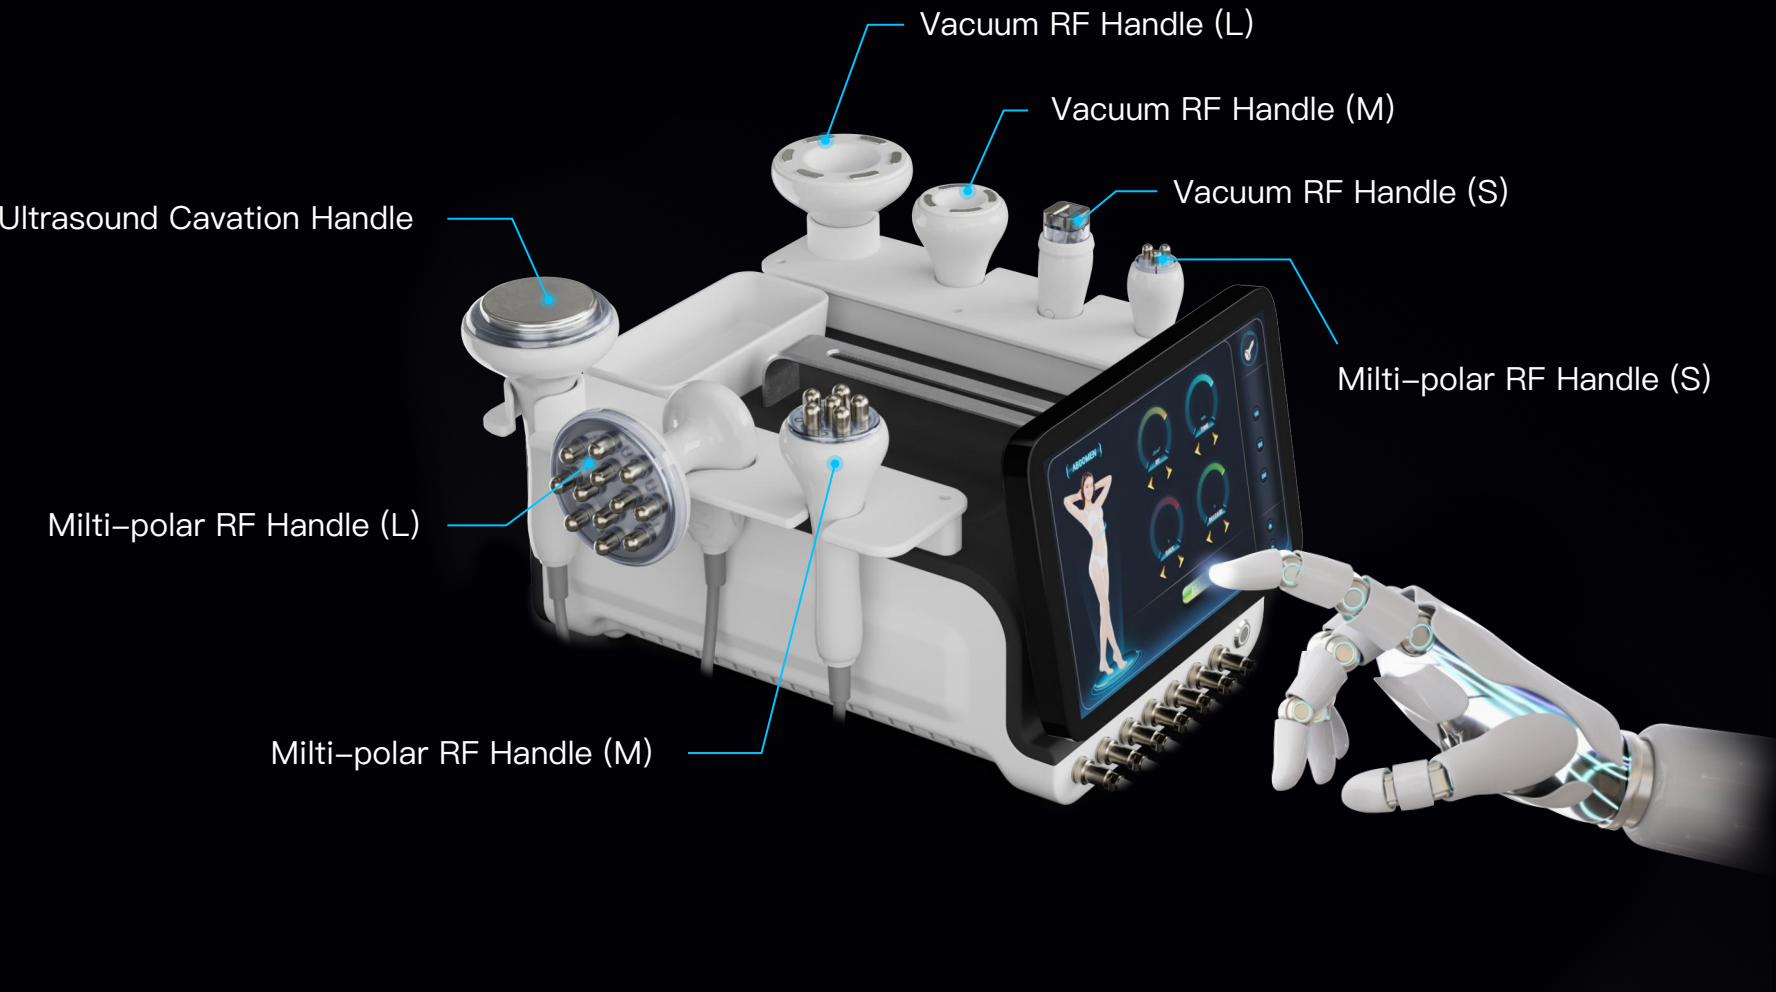

RF+Vacuum+IR+ Ultrasound Cavitation 4 in1

- Skin Tightening
- Fat Reduction
- Cellulitis Treatment
- Body Contouring
- Face Lifting
- Wrinkles Removal

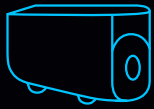

RF+VACUUM

12.1inch high-resolution capacitive screen (touchable)

JAPAN SMC SOLENOID VALVE

High speed, long life, no noise

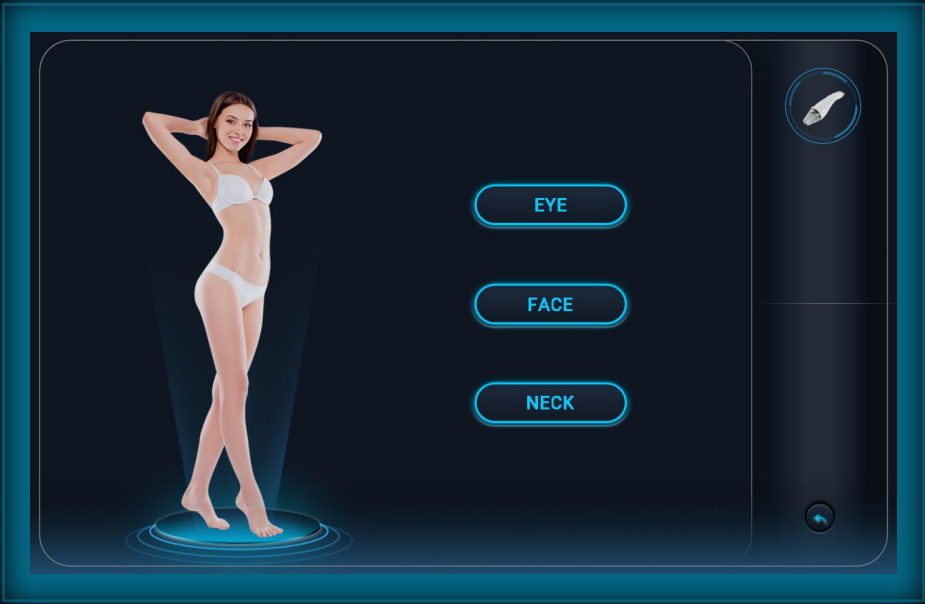

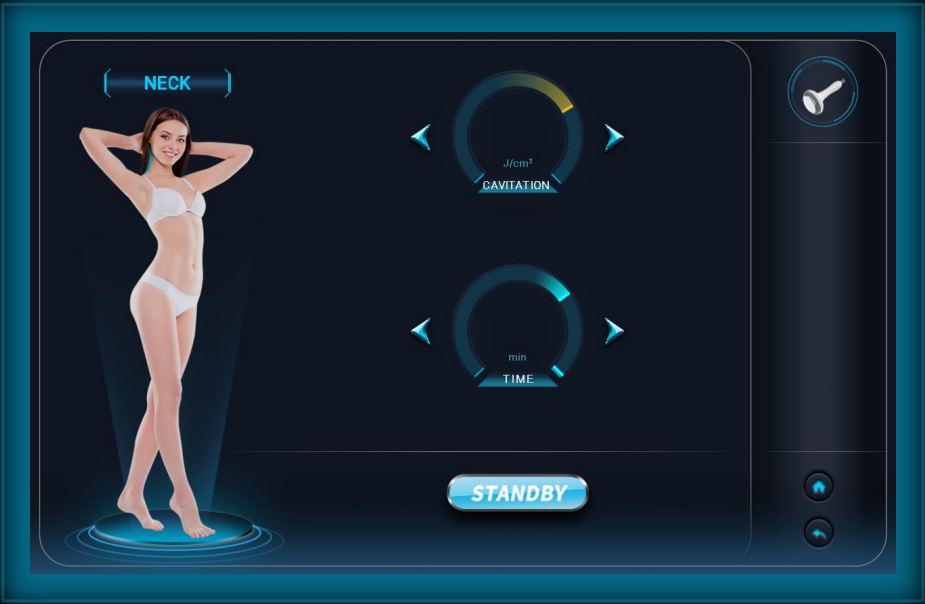

ITALY IMPORTED AIR PUMP

Large flow, low noise

AMERICA COHERENT IR LASER DIODE

High power, long life

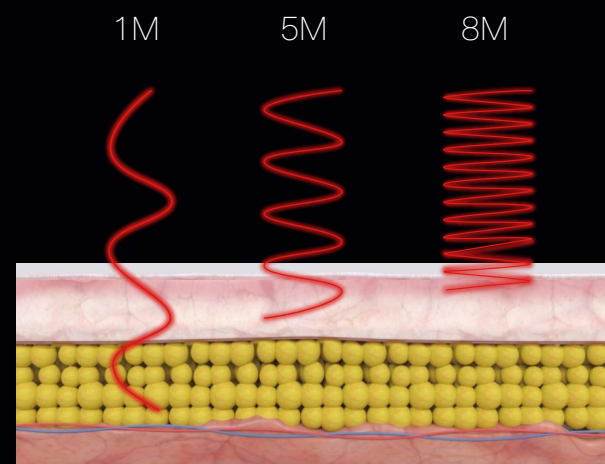

Intelligent Operating System

- The handle can be automatically recognized, injection molding process, lightweight and convenient

Japan Imported Triple Frequency RF Power Supply

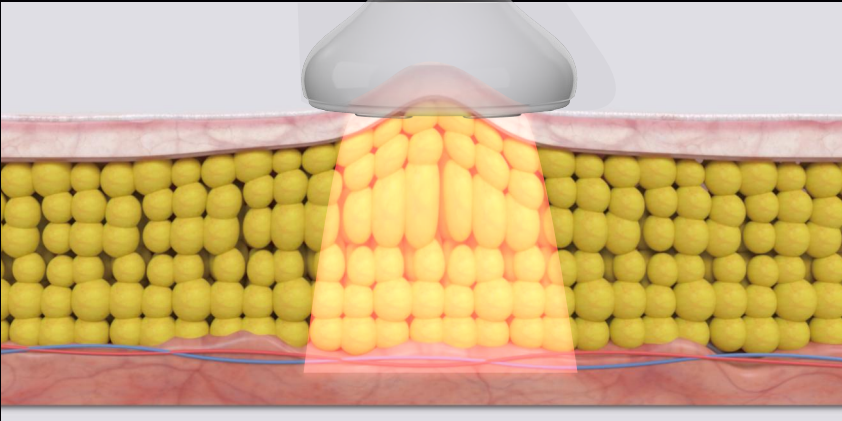

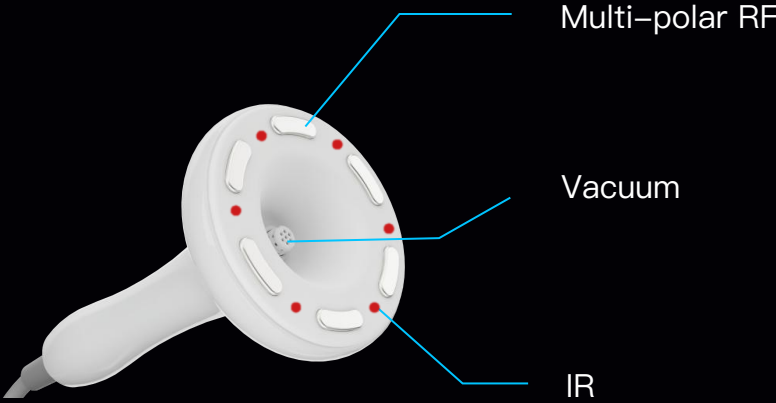

- It adopts triple frequency RF power supply imported from Japan, which can output three different frequencies of 1M, 5M and 8M respectively, and three different penetration depths. Customers can choose different frequencies for treatment according to different treatment items.

- 1M RF for body slimming, weight loss and body shaping
- 5M RF for deep wrinkles wrinkle removal, skin tightening and lifting
- 8M RF for superficial wrinkle removal and skin tightening

Vacuum RF Handle

Combination of Multi-polar RF, Vacuum & IR makes it possible to deliver RF energy to the desired target area effectively and precisely. Both face and body treatment is possible, offering a wide range of benefits such as anti-wrinkle and skin regeneration effect.

VACUUM RF HANDLE (L)

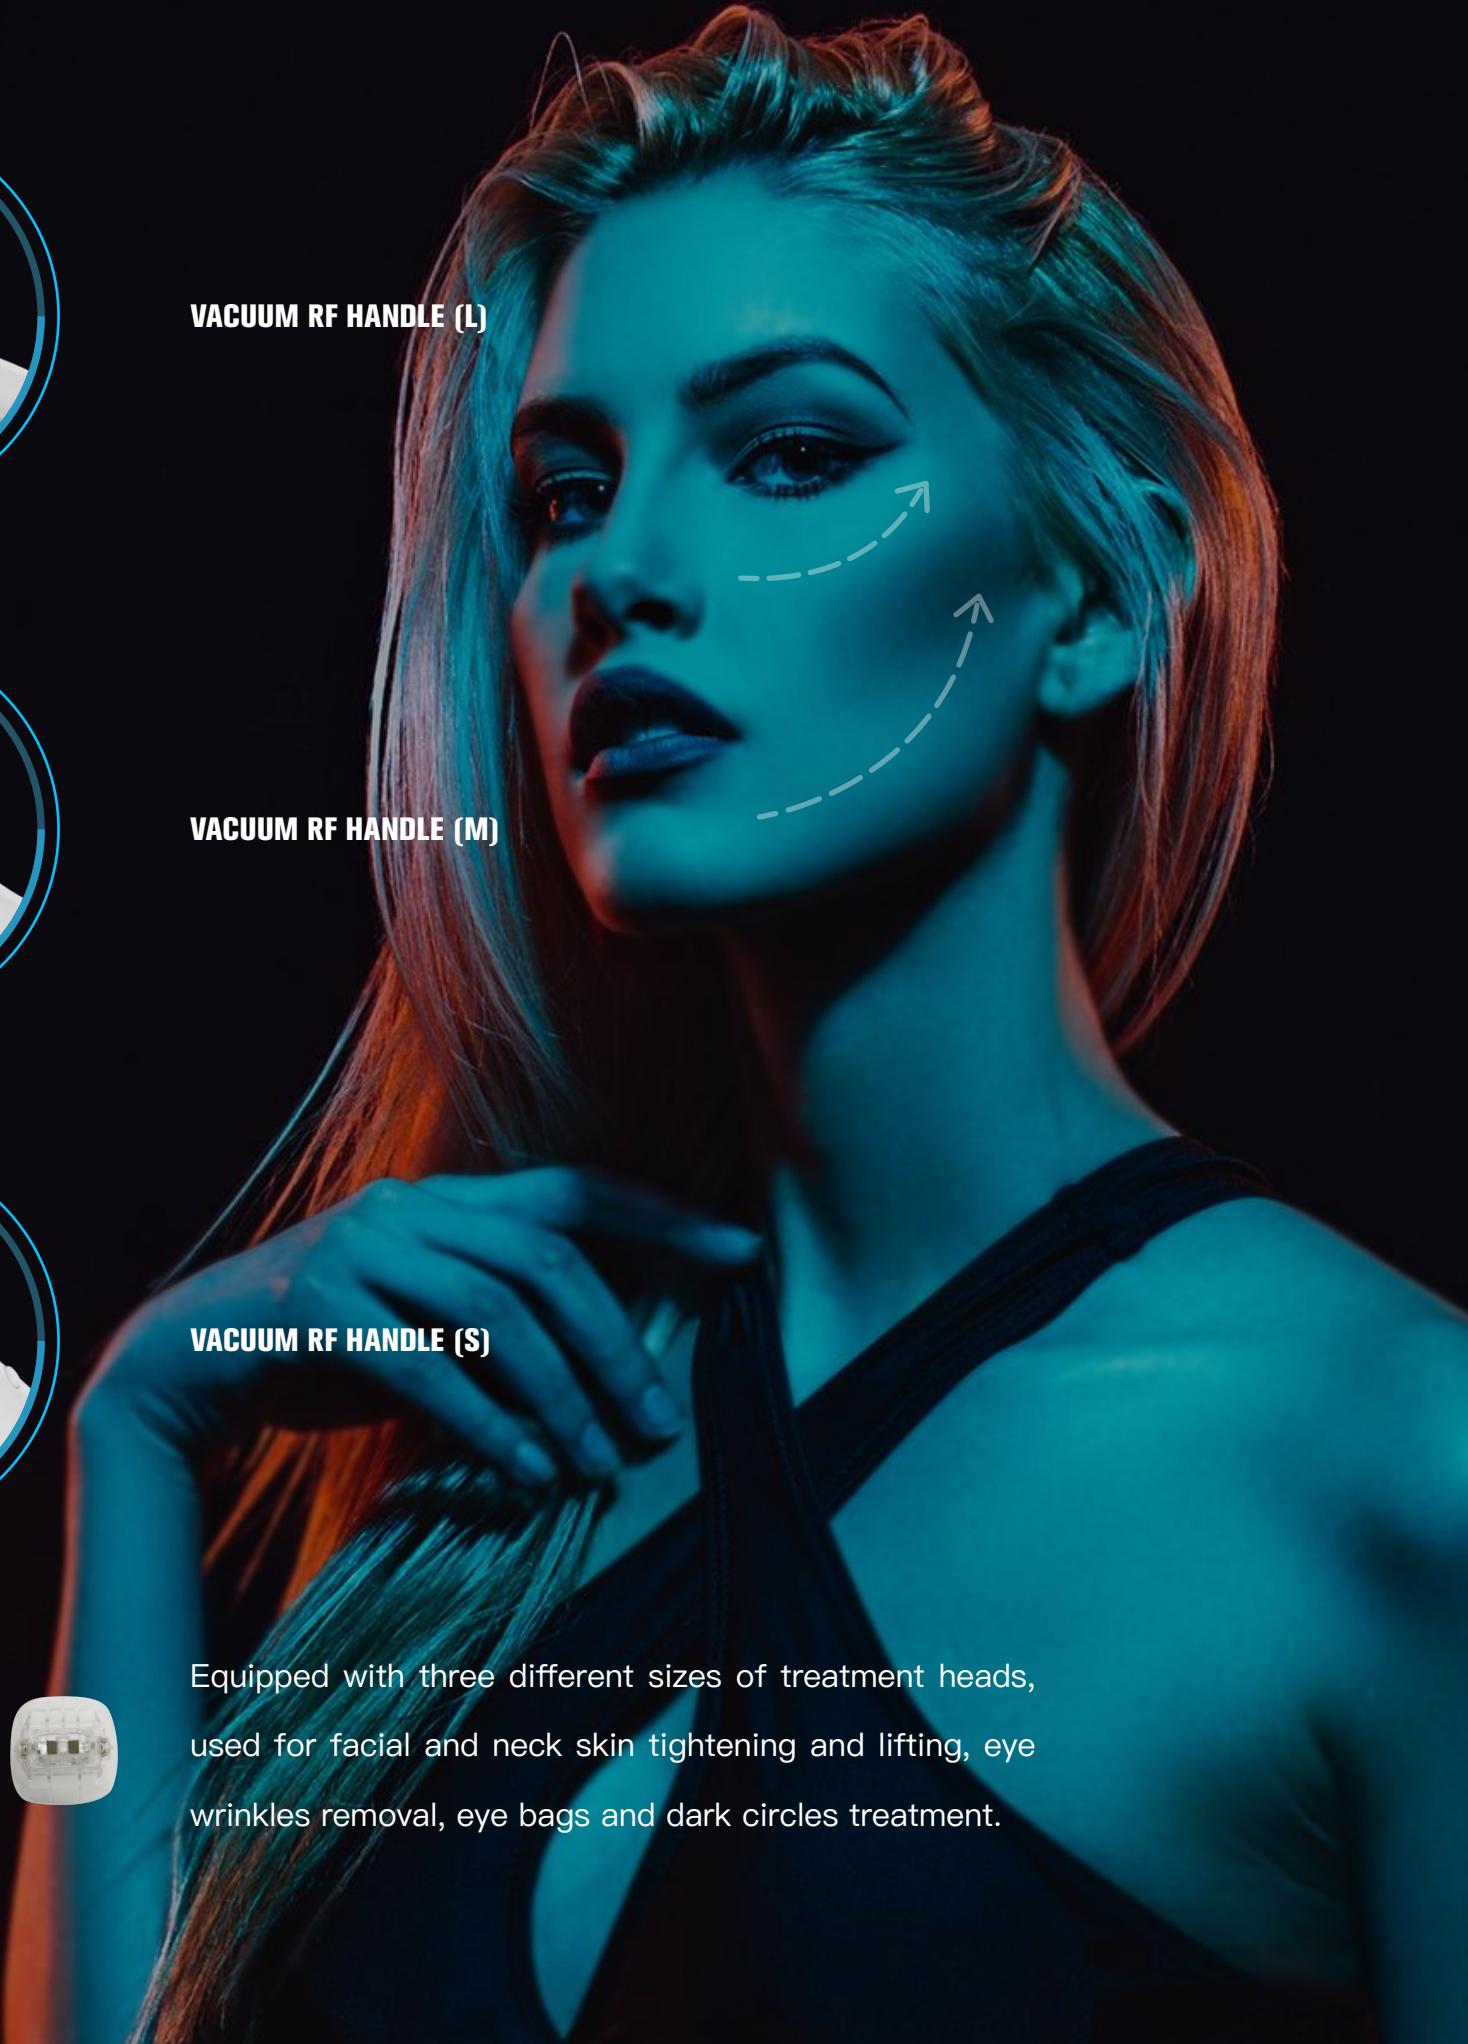

VACUUM RF HANDLE (M)

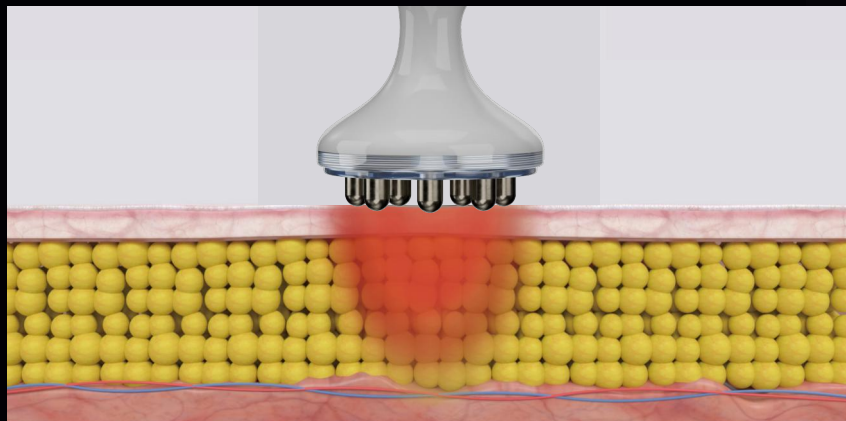

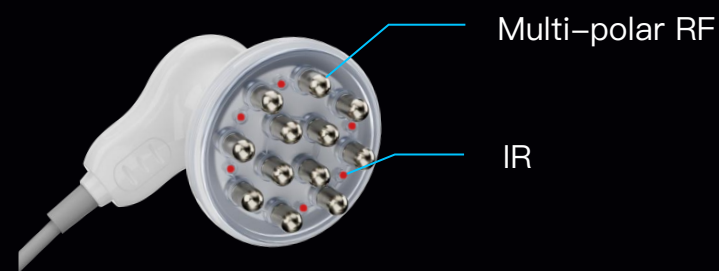

VACUUM RF HANDLE (S)

Equipped with three different sizes of treatment heads, used for facial and neck skin tightening and lifting, eye wrinkles removal, eye bags and dark circles treatment.

Milti-Polar RF Handle

The combination of Multi-polar RF and IR enables accurate and effective RF energy transfer while improving skin elasticity. 3 size of handpieces allow various area treatment from face to whole body.

MULTI-POLAR RF HANDLE (L)

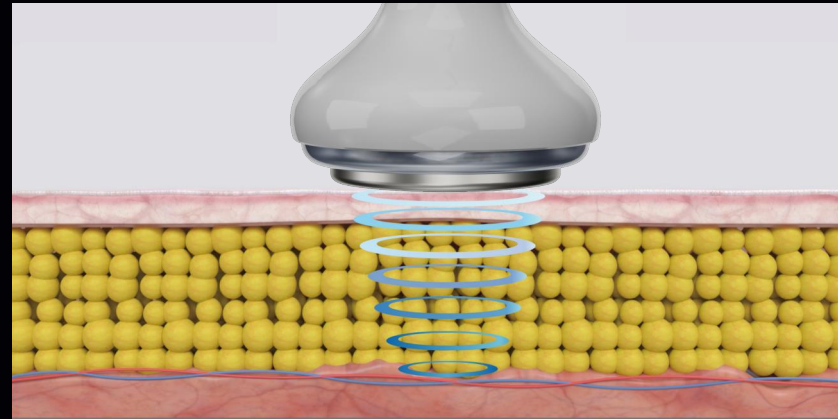

MULTI-POLAR RF HANDLE (M)

MULTI-POLAR RF HANDLE (S)

Ultrasound Cavation Handle

- 60Khz ultrasonic wave, directly reach the fat layer, the fat reduction effect is remarkable.
- 80mm diameter ultra-large ultrasonic array, provides better whole-body fat reduction effect, and faster treatment speed.

Specifications

Voltage:	220V/110V
Power:	500W
Vacuum:	82KP
RF frequency:	1MHz/5MHz/8MHz
Output mode:	Continuous output
RF power:	300W
Screen:	12.1 inch Touch screen
Handle quantity:	7 pieces
